CATTLE-Good butchers' stock cor manded better prices, \$3,50(6,4,75 being paid for cattle that would have been a drug last week at \$3,50(6,4,50. In fact the only class in which there was not some improvement was "stockers." Fair to good atock steers have for some time next been salling at relative leafure well. good stock steers have for some time past been selling at relatively better pri-ces than other grades. There was very little change to note in the quality of the offerings, common and native medium stock, and Texas and Cherokee compris-ing the major portion, and we find the bulk of the sales at the low range of \$5, 75(\$5.75]. There were no choice become 'Flora Corsetts,' hulk of the sales at the low range of \$3,-75(§5,76. There were no choice beeves on sale, and barely 100 head that would class above "medium," hence quadations for first and second chass are, at present, simply nominal. The market closed firm with about all sold.

Hoos—Boston and Philadelphia buyers were doing little or nothing, and fat hogs averaging from 250 to 350 hs, brought no better prices than light smooth even lots of from 180 to 230 bs average. The range of prices was \$7,90 (\$8,50, with most of the transactions within the range of \$3,12;a8,35.

Sherp—Thin lots were duil and easy, but without quotable change; sales were cliefly at a range of \$2,50a3,75.—Tribune, Oct. 5. In our Carpet Rooms
